PROFESSIONAL SUMMARY

Results-driven Integration Developer with over 8 years of experience in enterprise integration, API-led connectivity, and automation. Expertise in MuleSoft Anypoint Platform and Workato with a strong background in Java. Proven track record of delivering scalable integration solutions across banking, healthcare, and enterprise domains. Skilled in CI/CD, Agile methodologies, and cross-functional team leadership.

TECHNICAL SKILLS

Integration: MuleSoft Anypoint Platform (API Design Center, Exchange, Runtime Manager, CloudHub), Workato, RESTful & SOAP APIs, RAML, OAS

Programming: Java, JavaScript, DataWeave, SQL

DevOps & Tools: Maven, Git, GitHub, GitLab, Bitbucket, Jenkins, Bamboo, Docker, JIRA, Confluence

Databases: DB2, Snowflake, Oracle, MySQL

Methodologies: Agile/Scrum, API-led Connectivity, C4E, SDLC

PROFESSIONAL EXPERIENCE

Assistant Manager

Genpact (previously Enquero)

Sept 2022 – Present

- Lead end-to-end integration projects using MuleSoft and Workato for enterprise clients in banking and technology sectors
- Design and implement CI/CD pipelines using Bamboo and Jenkins, reducing deployment time by 40%
- Architect API-led connectivity solutions following C4E best practices and governance frameworks
- Collaborate with cross-functional teams for requirements analysis, solution design, and project delivery
- Mentor junior developers and conduct code reviews to ensure quality and best practices

Software Developer

IQVIA

Apr 2021 – Jun 2022

- Developed integrations for IQVIA Vigilance Platform using MuleSoft Anypoint Platform in the healthcare domain
- Built scalable APIs integrating with Snowflake databases and message queues for pharmacovigilance processes
- Enhanced system performance and reliability through optimized integration solutions
- Implemented data synchronization between cloud-based platforms and enterprise systems

Senior Systems Engineer

Infosys Limited – HSBC

Apr 2019 – Apr 2021

- Led integration projects for HSBC focusing on online bill payments and PSD2 compliance implementations
- Developed and managed APIs on MuleSoft Anypoint Platform for secure payment services
- Implemented China Data Localization project under CBIRC regulatory requirements
- Handled team management and project deliveries in Agile environments using PCF and DB2

Systems Engineer

Infosys Limited – HSBC

Dec 2018 – Mar 2019

- Implemented MuleSoft solutions for payment services and API-led integration projects
- Developed a validation framework using Java 1.8 for integration testing and data validation

Software Engineer Trainee

Infosys Limited

Jul 2017 – Dec 2018

- Completed training in Java, integration development, and MuleSoft platform technologies
- Assisted in developing API-led solutions and contributed to enterprise integration tasks

EDUCATION

Bachelor of Technology – Computer Science & Engineering

2017

Maulana Abul Kalam Azad University of Technology (MAKAUT)

Bengal College of Engineering and Technology, Durgapur

CERTIFICATIONS

- Workato Automation Pro III – Valid till Dec 2025
- MuleSoft Certified Developer – Level 1 – Valid till Dec 2024
- Workato Automation Pro II – Valid till Nov 2024
- Workato Automation Pro I – Valid till Nov 2024
- MCD – Integration & API Associate – Valid till Sep 2021
